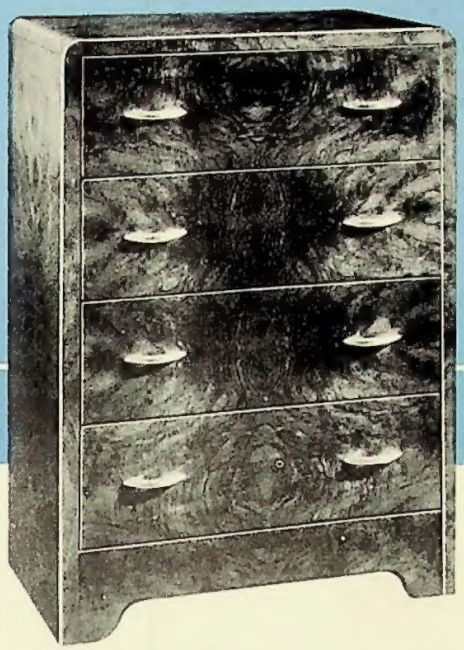
No. 140-C CHEST
SIZE: Width 30"
Depth 18"
Height 45"
Drawer Height 9"



The Furniture illustrated in the No. 140 suite is finished in a photographic reproduction of matched Burl Walnut.

Where hard usage is anticipated, the baked enamel finishes on this furniture are particularly desirable. Also they are highly resistant to moisture and rough handling. This furniture is also available in straight grain Walnut, Colonial Maple, Crotch Champagne, Amber Mahogany, Gray Oak and Pastel colors. Tropical Marine finish at a slight additional cost.

U S PATENT OFFICE

An exceptionally fine feature of this metal furniture is its sectional construction of die formed, uniform parts, making it simple to replace or repair damaged parts. Gauges of steel and workmanship are equal or superior to U. S. Government furniture requirements.

Metallic sounds are eliminated through use of sound deadened panels. Drawers are large and roomy utilizing all available interior space.

No. 122 STUDY DESK

SIZE: Width 36"
Depth 22"
Height 30"
Drawer Height 3¾"

Illustrated in Colonial Maple with Masonite top. Shipped with legs dismounted to reduce your freight costs. All steel construction with exception of tempered Masonite top. The latter offers an exceptionally comfortable and efficient writing surface since it is smooth, non-reflecting and non-metallic. Edges formed of protective metal molding, removable to permit easy replacement of Masonite panel.

PATENT OFFICE
MAY 16 1949
DESIGN DIVISION

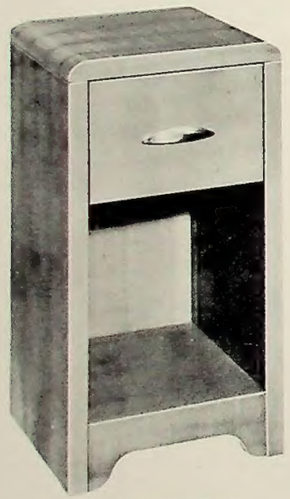
No. 119 STUDY DESK

SIZE: Width 39"
Depth 18"
Height 30"
Drawer Height 3¾"

Bottom brace and drawer can be reversed permitting book compartment to be placed right or left as desired. Only a screw driver is needed to execute this change. Desks shipped assembled.

Illustrated in straight grained Walnut with steel top, but available in all standard finishes with alternative tops of Masonite or linoleum.

All desks are mounted on rounded metal glides to protect floor surfaces.



No. 140-NS NIGHT STAND

SIZE: Width 14"
Depth 12"
Height 26"
Drawer Height 7½"

Illustrated in Burl Walnut, but available in all standard finishes.

All Turk desks are designed and manufactured to exacting specifications in order to obtain a maximum of sturdy construction and insure long, durable service. Further, every consideration has been introduced for the dual purpose of providing desks which occupy a minimum of floor space, yet have ample working surface, reference book area and drawer capacity.

The heavy metal construction is insurance against rough handling, hard usage and adverse climatic conditions. Available in Burl Walnut, straight grained Walnut, Colonial Maple, Crotch Champagne, Amber Mahogany, Gray Oak and Pastel colors. Tropical Marine finish at a slight additional cost.

No. 124 STUDY DESK

SIZE: Width 42"
Depth 22"
Height 30"
Drawer Height 3¾"
Height, upper book rack 9½"
Height, lower book rack 11"

Heavily constructed similar to No. 123 and available with alternative top covering of Masonite. Desk is illustrated in Amber Mahogany but is obtainable in all standard finishes. Illustration shows the ornamental aluminum extrusion edging.

No. 123 DOUBLE STUDY DESK

SIZE: Width 42"
Depth 36"
Height 30"
Drawer Height 3¾"
Height, upper book rack 9½"
Height, lower book rack 11"

This desk accommodates two students facing each other, separated by a 36" top. The depth of the two drawers is approximately half of the 36" dimension. Desk is illustrated in two-tone Gray enamel, but is available in all standard finishes. Desk is shown with Masonite top but can be supplied with enameled steel top or with linoleum. Protective edging is ornamental aluminum extrusion.

TURK PRODUCTS CORPORATION
Makers of Fine Metal Furniture Since 1893

No. 125 TECHNICAL STUDY DESK

SIZE: Width 36"
Depth 22"
Height 30"
Drawer Height 3¾"

Illustration "A"

This desk was especially developed for use in technical schools where an unusually large amount of writing surface may be required, and where it is desirable to provide a base for supporting a drawing board at the usual angle. The arrangement is such that the desk occupies comparatively little floor space when it is in active use.

Illustration "A," shows the desk in the normal closed position and portrays the straight grained Walnut finish with tempered Masonite top. It is also available in all standard finishes and with a top of enameled steel or linoleum.

Illustration "B," shows the drawer fully extended against drawer stops which prevent it falling out. In this position the student can use the Masonite lid of the drawer for a writing surface and the desk top proper for his reference books. Or, he can place the drawing board against the near edge of the desk top proper with the base of the drawing board securely wedged against the inside top of the drawer head as sketched.

Illustration "C," shows how the Masonite lid can readily be lifted and hinged back to permit easy access to the drawer.

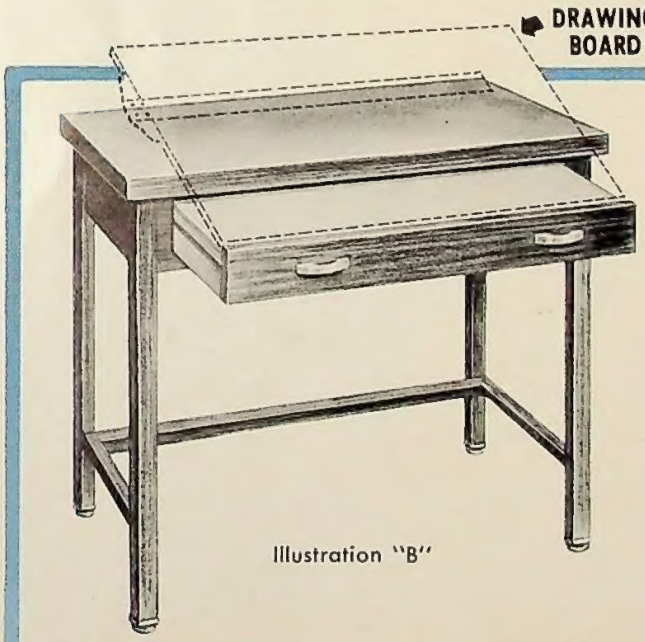

Illustration "B"

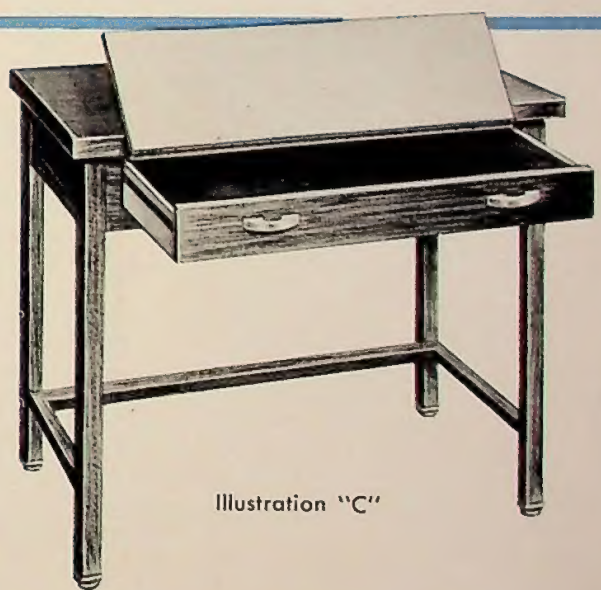

Illustration "C"

TURK PRODUCTS CORPORATION

Makers of Fine Metal Furniture Since 1893

These chairs represent the latest developments in sturdy all welded construction, the fullest possible comfort, low maintenance cost, modest initial investment and attractive modern appearance.

Steel chairs available in all standard enamel finishes. Aluminum chairs also supplied in soft, satin finish aluminum, surface treated for maximum protection. Covered with tough coating of baked transparent lacquer. This finish is especially attractive, long lasting and needs little attention to keep it neat. Optionally, aluminum frames can be finished in solid color protective enamels such as Brown to harmonize with chests, desks, etc.

Chairs are covered with Cavalon (synthetic leather) in stock colors of Maroon, Green and Brown. Upholstery filler material standard is high grade cotton felt. Foam rubber is optionally available. All chairs mounted on smooth, sliding glides, chrome plated to protect floors and rubber insulated to prevent noise.

No. 212 ALUMINUM ARM CHAIR
SIZE: Seat 17"x17½"
Height (over all) 33½"
Width (over all) 23"
Curved Back 10½"x16½"

A very fine study chair occupying minimum floor space yet offering full comfort of a large sized arm chair. Arms integrally welded to main frame—cannot loosen or weaken.

PATENT OFFICE
MAY 16 1949
DESIGN DIVISION

No. 211 ALUMINUM SIDE CHAIR
SIZE: Seat 17"x17½"
Height (over all) 33½"
Curved Back 10½"x16½"

Designed in conjunction with Government authorities to offer the maximum comfort combined with durability and attractive appearance.

No. 300 STEEL ALL-PURPOSE CHAIR
SIZE: Seat 16"x17"
Height 35"

Equally suitable for dormitories, dining halls and miscellaneous uses. The back is comfortably shaped and the seat is ample; occupies minimum floor space. Available in Grain Walnut and all standard enamel finishes matching other steel furniture.

No. 161-DS DRESSER with SEC'Y UNIT
(four drawer)

SIZE: Width 36"
Depth 19"
Height 40"

This stream-lined built-in type, permanent dormitory secretary dresser is the answer to low maintenance costs, conservation of space. All drawers mounted on roller bearings and equipped with drawer stops.

Three drawers form a dresser unit on which is mounted a one drawer secretary unit containing a writing lid with linoleum top surface and mirror underneath, serving a dual purpose of vanity and desk; a pen and pencil tray included. May be had in enamelled steel, formica or ferolite abuse proof tops. This furniture finished in two-toned Gray enamel. Available in all standard finishes.

ILLUSTRATION SHOWS LINOLEUM WRITING SURFACE

ILLUSTRATION SHOWS VANITY MIRROR

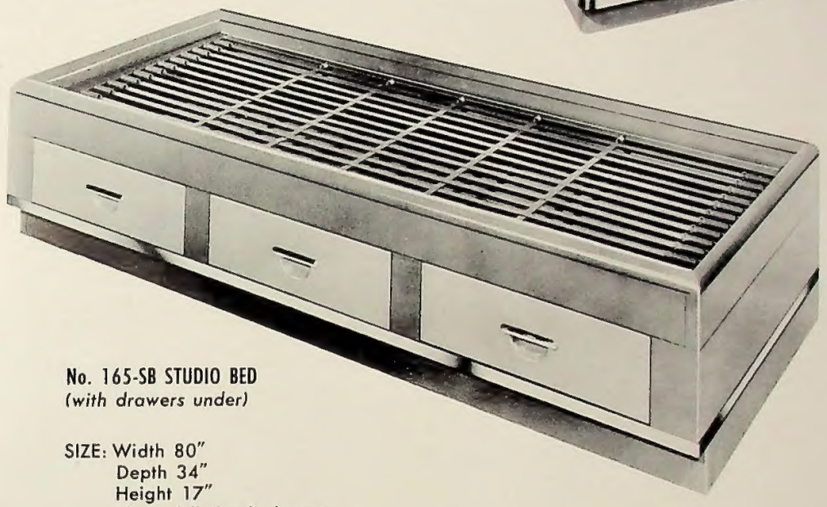
No. 160-CC CHEST-ON-CHEST

SIZE: Width 36"
Depth 19"
Height 50"

This chest-on-chest is an excellent item for permanent dormitory equipment as it offers all the advantages of fixed furniture, yet can be moved when necessary without dismantling. Trim is satin-finished aluminum and toe space around the base is protected by stainless steel kick plate.

This illustration shows two 3-drawer units but it can be converted into a secretary chiffonier by inserting a secretary drawer, as illustrated on No. 161-DS, between the two 3-drawer sections.

PATENT OFFICE
MAY 16 1949
DESIGN DIVISION



No. 165-SB STUDIO BED
(with drawers under)

SIZE: Width 80"
Depth 34"
Height 17"
(three full depth drawers
size each, 7"x22"x30")

All edges are rounded to a full radius. This piece designed to be used with standard innerspring mattress as a comfortable bed at night and an equally comfortable sofa during the day. Mattress projects proper distance above top edge of bed for adequate seating comfort. Heavy duty band spring provides ample resilience. Bedding compartment has full steel panel bottom.

Drawers are mounted on roller bearings for finger tip operation and equipped with drawer stops. Satin finished aluminum trim will be supplemented by stainless steel kick plate to protect lower edge of entire base. Base proper is designed to look like built-in furniture. It can be moved for cleaning, if desired.

TURK PRODUCTS CORPORATION
Makers of Fine Metal Furniture Since 1893

These aluminum lounge chairs were developed on a mass production basis to meet Government and Institutional requirements for modest priced chairs with all the advantages of the highest quality aluminum furniture. Chair frames are of finest quality corrosion-resistant aluminum, permanently welded by gas shielded processes, using new techniques developed in airplane construction. All members are extruded with rounded edges and corners; aluminum tubing is 1½" square. Aluminum surfaces scientifically surface-processed and covered with protective coating of transparent or solid color enamels (see page 9). These chairs are mounted on noiseless, molded plastic shoes. Standard covering materials Cavalon (synthetic leather) over inner-spring and cotton felt cushion construction. Foam rubber cushions available.

No. 213 ALUMINUM EASY CHAIR

SIZE: Width *(over all)* 26"
Depth *(over all)* 34"
Height *(over all)* 32"

A rugged easy chair, really comfortable, always neat in appearance, easily cleaned. Full welded for rigidity. Also available in high back cushion at additional cost. Matching two seat and three seat settees are also supplied.

No. 216 ALUMINUM LOUNGE CHAIR

SIZE: Width *(over all)* 24½"
Depth *(over all)* 33"
Height *(over all)* 37½"

This chair is similar to the No. 215 except the seat and back cushions are removable. Back cushion, of inner-spring construction, is reversible. Inner-spring seat cushion rests upon resilient link spring base making it a most luxurious lounge chair.

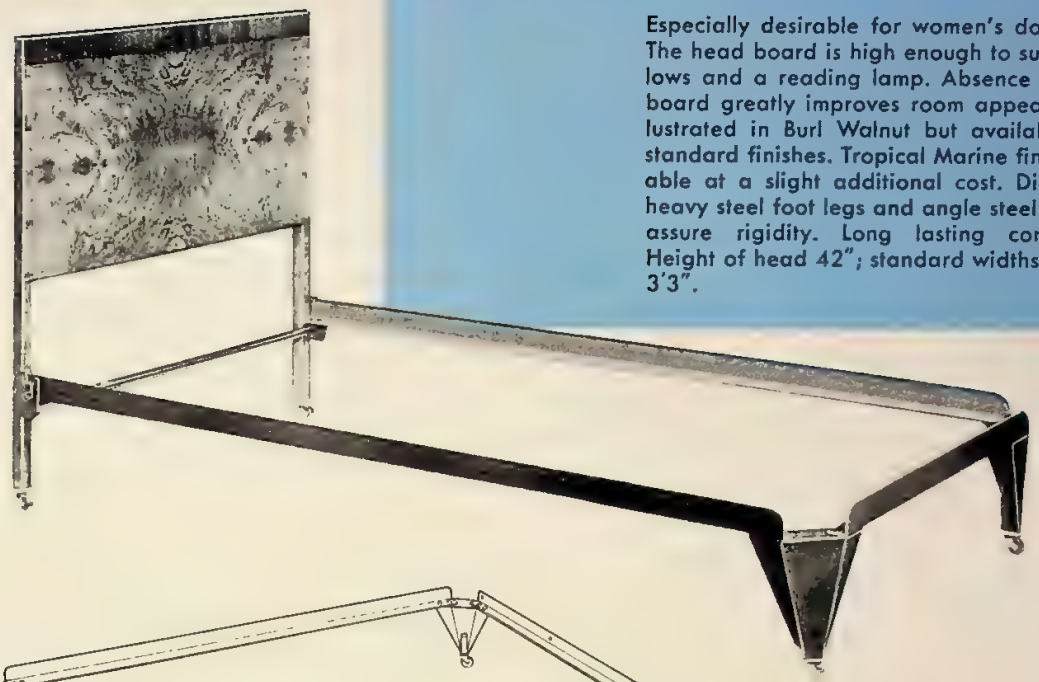
No. 215 ALUMINUM LOUNGE CHAIR

SIZE: Width *(over all)* 24½"
Depth *(over all)* 33"
Height *(over all)* 37½"
Illustrated in Cavalon

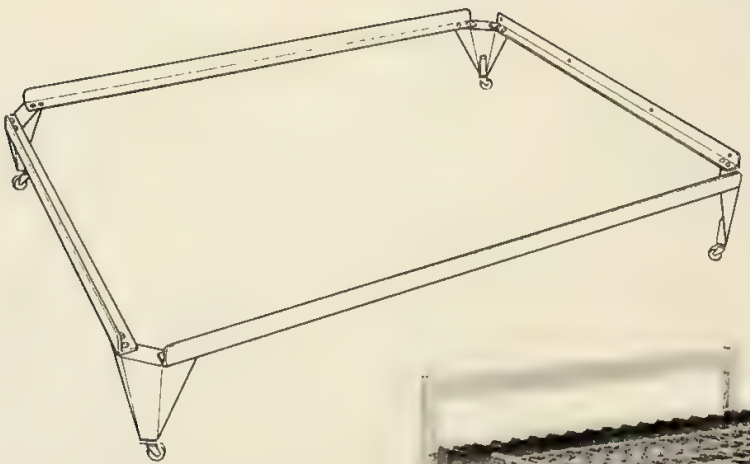
To minimize possibility of damage, spring-filled cushions built up on sturdy platform bases are secured to frame, but can be removed when recovering is necessary. Occupies comparatively little floor space yet offers fullest lounging comfort; high-backed to support the head. Illustrated in high grade upholstery fabric but available in Cavalon.

No. 140-HB HOLLYWOOD BED

Especially desirable for women's dormitories. The head board is high enough to support pillows and a reading lamp. Absence of a foot board greatly improves room appearance. Illustrated in Burl Walnut but available in all standard finishes. Tropical Marine finish available at a slight additional cost. Die formed heavy steel foot legs and angle steel members assure rigidity. Long lasting construction. Height of head 42"; standard widths 4'6" and 3'3".

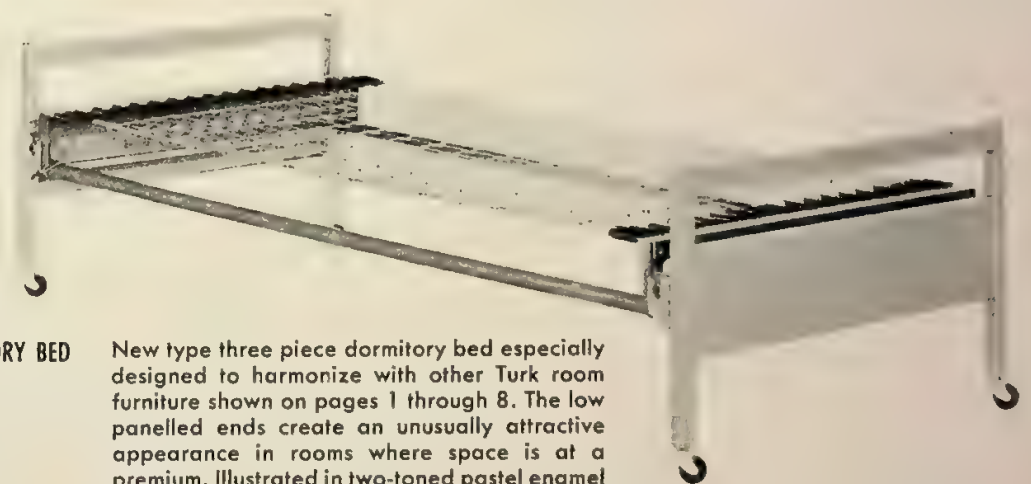


PATENT OFFICE
MAY 16 1949
DESIGN DIVISION



No. 205 HOLLYWOOD FRAME

Similar to the No. 140 HB but without the head board. Illustrated in Brown but available in all standard finishes. Standard widths 4'6" and 3'3".



No. 5451-H DORMITORY BED

New type three piece dormitory bed especially designed to harmonize with other Turk room furniture shown on pages 1 through 8. The low panelled ends create an unusually attractive appearance in rooms where space is at a premium. Illustrated in two-toned pastel enamel but available in most standard finishes. Standard width is 36", but specially made in other widths. Illustration shows "H"-type spring—a very durable, galvanized, twisted double link fabric. Can be supplied with single deck coil spring "M," illustrated on #841-M bed, double deck coil spring "C," or the new #317 combination spring illustrated on page 16.

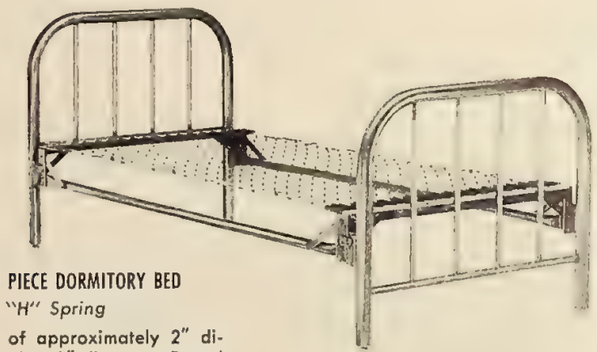
No. 841-M THREE PIECE DORMITORY BED

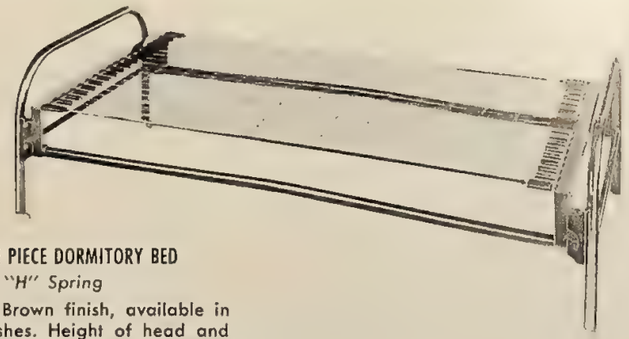
Illustrated with single deck "M" coil spring. Can be supplied with other springs as indicated under bed No. 5451, page 13. Illustrated in Brown enamel finish but available in most other standard colors. Standard width 36", other widths at extra charge in quantity only. Height of head 36"; height of foot 28"; height of spring 17"; inside length 6'4" between posts. Posts are molded tubing approximately 1¾". Cross tube is ⅞" round tubing and fillers are 1⅜" fluted. Mounted on 2" casters.



No. 849-H THREE PIECE DORMITORY BED

With "H" Spring

Round tubing posts of approximately 2" diameter, round cross tubes 1" diameter. Round fillers ¾" diameter. Height of head 35"; height of foot 28"; height of spring 16"; inside length between posts 6'4"; standard width 3'. Illustrated in Brown enamel finish, available in most standard finishes. Mounted on 2" casters. Can also be supplied with other springs as indicated under bed No. 5451, page 13.



No. 1250 THREE PIECE DORMITORY BED

With "H" Spring

Illustrated in solid Brown finish, available in most standard finishes. Height of head and foot ends 22¼"; ends are 1½" heavy wall tubing. Length of fabric spring 5½" risers with double hook corner locks. Mounted on 2" casters. Other springs available on quantity orders.

TURK PRODUCTS CORPORATION
Makers of Fine Metal Furniture Since 1893

No. 2 RUGBY COT

A sturdy emergency folding cot available in 2'6" and 3' widths. Ends 1" heavy wall tubing, designed to fold under for compact storage. Heavy angle frame with double link fabric spring. Height of ends 22"; height of spring 15"; inside length between posts 6'2"; side angles 1½"x1½"x⅛"; end angles 2"x1⅜"x⅛"; spring fabric 14 gauge—double wire. Finished in Brown enamel but available in special finishes.

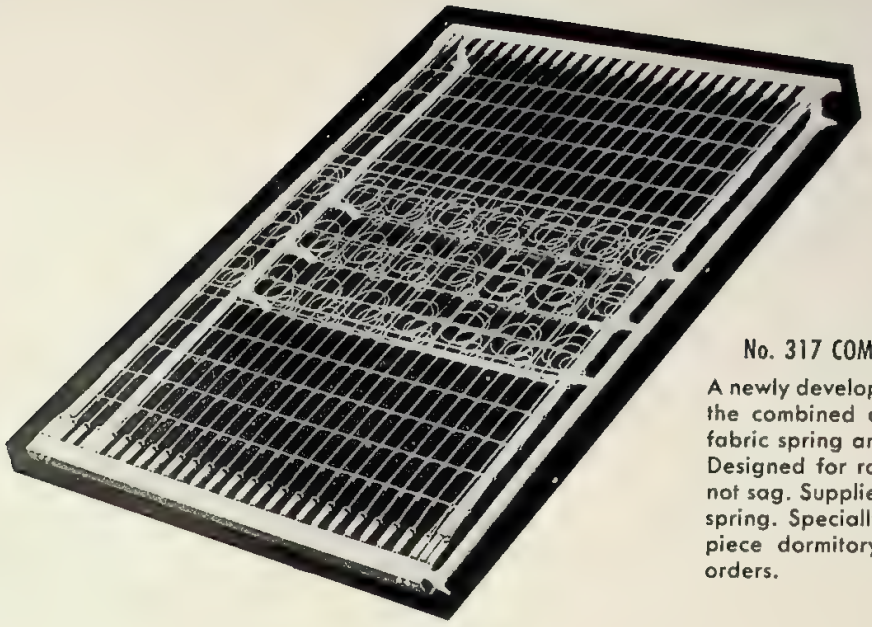
PATENT OFFICE
MAY 16 1949
DESIGN DIVISION

No. 814 DOUBLE DECK BED

Exceptionally well adapted for the crowded dormitory. Built of heavy wall tubing with a wall thickness comparable to pipe. It will withstand any amount of hard usage and reduce maintenance cost to a minimum. Standard width 36", available in other widths on quantity orders. Ends are 65" high; upper spring fabric 54" above floor; lower 13½" above floor; main frame tubing 1¼" OD; cross tubing ⅞"; fillers ⅝".

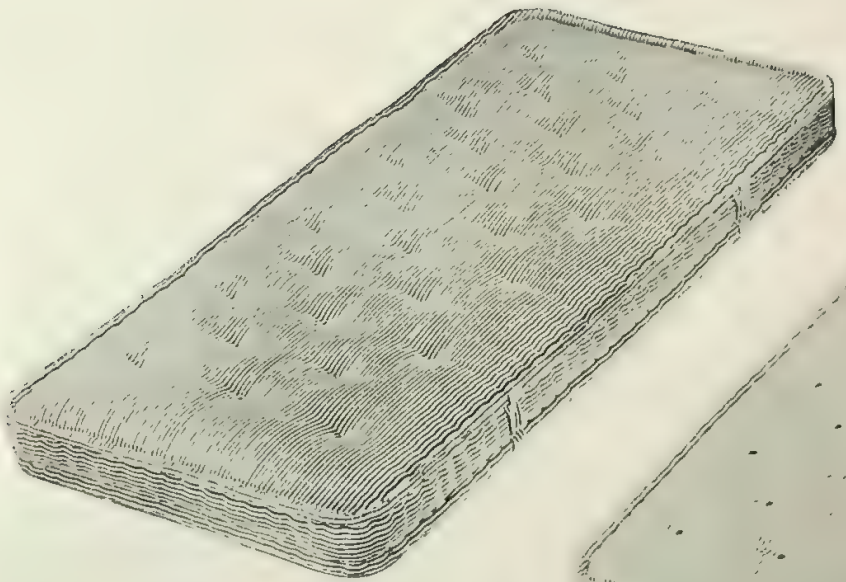
Springs are riser type, built of heavy angles, wall riser tubes and braces. Spring fabric is durable link type with reinforcing end bands. Corner locks rigidly secured, with ample bearing surface to insure rigidity. Double hook corner locks provided at extra charge. Mounted on glides to protect floors and covering. Illustrated in Brown enamel, available in special finishes. Lee Rail for upper berths can be furnished.

TURK PRODUCTS CORPORATION
Makers of Fine Metal Furniture Since 1893



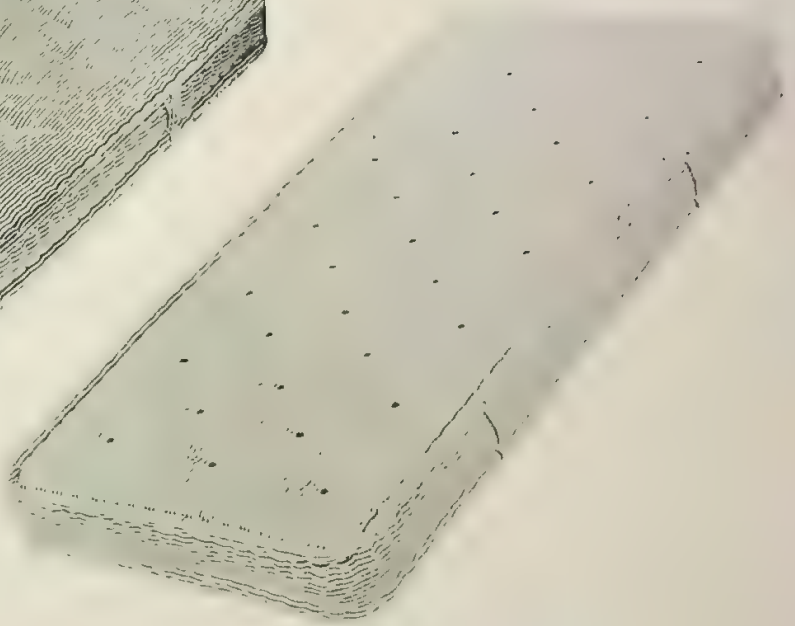
No. 317 COMBINATION LINK & COIL SPRING

A newly developed dormitory spring presenting the combined advantages of the twisted link fabric spring and a coil spring center support. Designed for rough usage, spring center cannot sag. Supplied in 4'6" or 3'3" as a separate spring. Specially made in 36" to fit any three piece dormitory bed illustrated, on quantity orders.



No. 52 INNERSPRING INSTITUTIONAL MATTRESS

A heavy duty type innerspring mattress originally developed for usage on hospital beds. Spring unit consists of 168 coils of tempered wire, helical cross tied to permit full resilience without breakage. Unit protected with burlap covering and insulated with stitching of finest white sisal stapled to it. Fully upholstered with layers of high grade cotton felt. Covering of seven ounce ACA woven ticking. Finished in a five inch box with locked stitch, roll edge. Tubular tape is used for tufting, eliminating buttons. Four ventilators and four handles provided. Size, 3' wide x 6'3" long. Other sizes available.



No. 62 INNER SPRING MATTRESS

Specially designed for dormitory beds. Standard width 3', other sizes to order. Covered in seven ounce blue and white striped ACA ticking. Seven inch box, locked stitch, rolled edge and finished with taped seams. Button tufted. 140 coils to the three foot size. Upholstered with stitch sisal pads and first quality white cotton layer felt. Available in other sizes on quantity orders.

TURK PRODUCTS CORPORATION

Makers of Fine Metal Furniture Since 1893

We offer for prompt delivery, quality upholstered furniture suitable for the finest homes, offices, hotels, motels and institutions, where it has been used successfully over a long period of time.

Construction and cover details are as follows:

FRAMES are made of selected dried hard wood, Magnolia or Oak, with corner blocks glued and fastened with screws. All rails 5/4 lumber.

WEBBING is imported Indian Red Stripe, each strip being fastened to the inside frame in such a manner as to prevent pulling away.

SPRINGS are coils of the best premier wire, securely attached to the webbing, and tied eight ways by hand with #60 polished hemp spring twine.

FILLING consists of curled hair and new cotton felt. Extra pads of curled hair interwoven in new burlap are added to the seat platforms.

COVER: KOROSEAL, the B. F. Goodrich upholstery material, is a permanently flexible fabric, that will not crack, peel, stick, scuff or wrinkle. It is waterproof, flameproof, and stain resistant and is easily cleaned with a damp cloth or mild soap suds. Available in fourteen beautiful colors, including reds, tan, yellow and Eggshell. Samples upon request.

TOP GRAIN LEATHER, available in maroon, dark green and saddle tan. Samples upon request.

FABRICS, a wide selection of beautiful fabrics available. Samples upon request.
